Version 3.0, valid from 12th November 2019

1 Subject Matter of the Supplementary Contract

The present Supplementary Contract to the Contract for the Use of the TELDAS Ltd. Number Portability Database (TSP INet-Server) governs the additional rights granted to Providers of On-line Databank Applications.

The following TSP INet-Server service type is available to the User:

- *Query Service: Electronic process for the search and query of ported numbers.*

2 Constituents of the Supplementary Contract

An integral part of this Contract is the Contract for the Use of the Number Portability Database ("Use of the TSP INet-Server for Numbers when changing the TSP (Number Portability)").

3 Additional Rules

The Contract for the Use of the Number Portability Database (TSP INet-Server) is subject to the following additional rules:

3.1 In addition to the confidentiality requirements stipulated in Paragraph 8.7, information concerning the current operator of the ported number for the network routing and for billing purposes may also be made available to third parties as an on-line application. In particular this includes the right to provide cost-optimized call connection for third parties or on-line enquiries by third parties for network routing or billing purposes.

3.2 The provision of ONP-Data for third parties as a reference database used in competition to the INet-Server database is not permitted.

3.3 Appendix 2 to the Contract for the Use of the Number Portability Database is replaced by the Fees and Conditions of Payment included in this Supplementary Contract (see 4).

4 Fees and Conditions of Payment

The User Fee for an unlimited number of queries in a calendar year is CHF 8'000.
